## CAPABILITY STATEMENT

# FRANKLIN THREE

*A NetF2.com, Inc. Company*

## CORPORATE SUMMARY

Franklin Three is a small business that provides supplies and services to military organizations, state and local municipalities, law enforcement agencies, private correctional facilities, and other defense contractors.

Our company operates across three divisions — **Automotive**, **Firearms**, and **Debris Removal** — allowing us to deliver tailored solutions ranging from simple requirements to large-scale, complex needs.

With more than 30 years of experience, we specialize in sourcing, problem-solving, and delivering specialized solutions. Our capabilities include expert automotive maintenance and repair services, comprehensive firearm manufacturing, procurement, maintenance, and repair, as well as full-service debris removal and disaster cleanup operations.

## PRODUCTS

### Firearms and Support Products

We manufacture, procure, repair, and maintain handguns, rifles, shotguns, and ammunition, and supply a full range of accessories including optics, holsters, cleaning supplies, reloading components, magazines, and slings. In addition, we offer Cerakote coating services that exceed industry standards for corrosion and temperature protection — not only for firearms, but also for valves, exhaust systems, and other critical components.

### Debris Removal

We also provide rapid-response debris removal and disaster cleanup services, helping communities and agencies restore safe conditions after storms, emergencies, or other catastrophic events.

### Automotive Repair and Support

We have a fully functioning auto repair shop with the proper equipment for modern vehicle maintenance and repair and are fully staffed with certified technicians. We can source parts as needed to maintain fleets in the field.

## PAST PERFORMANCE

Our ability to quickly source products and solve problems has made us a good partner for DHS-ICE, Charlton County, GEO Group, Infinity, City of Folkston, Town of Hilliard, and as a sub for other contractors.
